RELAY FOR LIFE

Relay for Life at Baldwin Park High School was really fun! Unexpectedly, I had the honor of passing out gifts as well as food to the cancer survivors that participated in this relay. In the morning, we helped set up tables, posters, and chairs. We were energetic from beginning to end, from morning until night.

-Michael Briceño

Aside from helping this relay, earning funds for their cause and even earning for the Nepal disaster that we donated to with our profits from selling boba, we had an amazing time playing volleyball in the middle of the venue and also checking out the many interesting things that different stations had to offer!

-Trish Lam

ADOPT-A-PARK IN MAY

As our monthly ritual, we volunteered to clean up Cameron Park to beautify and sparkle it up! Our members decided to amp the service up by listening to some tunes; whether it was K-Pop or it was mainstream, the music definitely increased the mood!

We had the playground all raked up to get rid of the pesky trash that was hiding underneath and we discarded harmful objects from the grass area!

"There was a sense of accomplishment knowing that I'm beautifying the park. By cleaning up the trash we provided the animals that live there a safer and cleaner environment."

-Becky Lu

Our SVHS Club Banquet with BP was a success!

26 people liked this

trishshsh

Just like a family, we sat together and ate. It was an enjoyable experience being able to talk, dine and have fun with those who I did know and those who I didn't. We got together with the BP Board and Mr. Manning and it felt livelier with their company. I got there at 4 but before even ordering our food, it was already 4:45. Time went by that fast with them! We took memorable photos and our amazing members that attended got awards and recognized for their great effort in Key Club!

RIB FEST

What happened during Rib Fest?

During Rib Fest, our division had offered our club two different shifts.

During the first, we helped set up tables, carry and set up chairs; set up the table with all the utensils; and place the décor on the tables.

During the second shift, we were assigned tables. We were serving our table with ribs, potatoes, drinks, bread, salad, and many more food items they liked or wanted!

May DCM

Our division's monthly DCM had a very interesting change of element! Instead of heading out to the usual parks and outdoors to host this DCM, this DCM was hosted in a community center!

As a warm up, the DLT had some special ice breakers for the key club members. We played in musical chairs and "perfect mate" (if that's what it is called).

As the DCM got started, we collected pop Tabs and all home clubs received a PVC pipe which is meant to be decorated by the next DCM!

With much surprise, we got some lovely donuts and there was plenty of food being sold to relief our hunger (for service!!)

At the end, the DLT had a very nice closure with a movie social!

HOWEVER, during this DCM, our outright most amazing officer of the month was **Rebecca Nhan!!** Congrats to our absolutely wonderful secretary for winning **Officer of the Month!**

DIVISION BANQUET

& Officer of the Month!

JASON TERRAZAS:

Division banquet was a wonderful experience with lots of memories that had refreshed back into the members!

The food was great; the speeches were heartwarming and well written! And the awards were fantastic!

Seeing officers and Kiwanis alike getting awards was amazing and seeing those people receiving awards has inspired me to step above the call of action for the club I serve!

OFFICER OF THE MONTH

*"I feel so thankful and would like to thank our Vice President **JASON TERRAZAS** for actually preparing me for this position really well. 'Always remember where you came from,' I will always remember Jason telling me this!"*

-Rebecca Nhan
